

## He's The Man

Heaven's Gate

He is the king of our land  
with golden heart and iron hand  
he rules  
he's the saviour

He's taking care of our lives  
his black eyes know to hypnotize  
he leads  
through his behaviour

With golden wings on glory ride  
he rose the iron sword  
we all are here to pay tribute  
and celebrate the lord

He's the man  
he fights for law and order  
he's the man  
and standing one for all  
he's riding for our liberty  
beyond the fear and agony  
he will be the saviour of us all  
He's the man

The scepter's rising for a sign  
the chalice full of bloody wine  
beloved king,  
we salute ya'!

The jester does exhilarate  
there is no time to hesitate  
we know  
we 'll ride forever

The path of glory never ends  
we keep the faith of fame  
the iron sword is riding on  
Hallowed be thy name

Marching in the darkness  
standing side by side  
all the gods of thunder  
blinded by the light
