

# Terminated World

Heaven's Gate

Times running short for a deal  
take your chances  
make up your mind, time to heal  
no romances

You're creeping in a desert valley  
and waiting for the midas touch

Now your disgrace, you 're not  
within a world of circumstances  
you're locked up in an empty room  
behind the door of a million chances  
you're living in a world of doom

Why live and die in a  
terminated world  
take your time  
waitin' for tomorrow  
the chains are breaking free

Born with the faith in your heart  
you'll be leading

Why, why we live and die  
we live and die in a terminated world
