

## Bravery in the Field

Heavenly

Alone in the dark  
When silence is reigning after victory ride  
Carry on, along the way  
Faithful to your dreams  
To reach for the stars and proudly attain glory  
Rising up out of the flames  
To raise your armours high  
Face to face with your destiny

There are so many things  
Cling to the past, hard are all your memories

Carry on, along the way  
But don't falling down  
Long is the road leading to earthly paradise  
Rising up out of the flames  
To raise your armours high  
Face to face with your destiny

Forward to survive  
Without leaving the fear appear  
Fighters ones for all and brave out with courage  
To the death we still repent

We are glorious, glorious  
Mighty is right again  
Bravery in the field all everyone  
Unity is getting number one  
So glorious, glorious  
The enemy has run away  
It's victory when all is done  
Unity is getting number one

There was a time  
Riding across the way  
Lost and tired  
In the cold light of day  
Resounded in the wild  
We were the chosen ones  
Soldiers for better or for worse

[Chorus]
