

# Keepers of the Earth

Heavenly

Can you believe me  
if I tell you the truth  
I live eternally  
Death is just for you  
Power and glory  
Are invading your thoughts  
Meanwhile misery  
Is killing too fast  
I'm looking the sky  
I am waiting for more  
Many people are dying  
Again any more  
I'm wondering if we will find  
Solutions to be close  
We are free to decide  
Make your choice  
Mad is human's pride  
To defy paradise  
Cause we are here  
The keepers of the earth  
Raise your armours high  
Our land is so divine  
And we will stay here  
The keepers of the earth  
But time is running out  
Holy wars victims  
Are sending to their doom  
Dictators are reigning  
thinking they are gods  
The last century  
Was deadly more cruel  
Bomds were atomic  
Million live have gone  
I'm looking at the sky  
I am waiting for more  
We are free to decide  
Make your choice  
Mad is human's pride  
To defy paradise  
Cause we are here  
The keepers of the earth  
Raise your armours high  
Our land is so divine  
And we will stay here  
The keepers of the earth  
But time is running out  
I'm looking at the sky  
I am waiting fore more  
We are free to decide  
Make your choice  
Mad is human's pride  
To defy paradise  
Cause we are here  
The keepers of the earth  
Raise your armours high  
Our land is so divine  
And we will stay here

The keepers of the earth  
But time is running out  
Running out
