

# My Turn Will Come

Heavenly

Day by day  
we become man  
in this world  
in all the nations  
take your time - no regulations

I'm not ready yet  
how to live my life?  
I'm afraid of the wind, of the sun, to be free

No, I won't go far away from home  
There are my friends, my family  
I need to stay  
When I feel the time has come  
I will find a power inside me  
to leave what all the others left behind

My turn will come - My turn will come

I will trust my inspiration  
I'm not like the population  
We will see the new generation

I won't take the risk  
to miss my life  
I'm afraid of the wind, of the sun, to be free

No, I won't go far away from home  
There are my friends, my family  
I need to stay  
When I feel the time has come  
I will find a power inside me  
to leave what all the others left behind
