

# Promised Land

Heavenly

Somewhere there is a land  
made of the highest mountains  
and golden sand  
Only one man can find this place  
and they chose me to save our race

Heavens, help me to find the way  
to freedom before judgment day  
But I'm worried if we don't be in time  
The evil comes to cross the line

Where's the promised land -  
up in the sky  
Where is the promised land -  
Until I've found our freedom  
I will not die

Where's the promised land -  
my destiny  
Where's the promised land -  
I need a guiding light  
to make my clouded eyes see

Now I ride and I feel it's right  
going faster than light  
through the night  
Once in a while I'm closing my eyes  
and dreaming of the promised land

Oh Lord, you gave me my faith  
We're getting closer  
reaching this magic place  
I open my eyes and realize  
we are free  
turning my head  
they're still after me

Where's the promised land -  
up in the sky  
Where is the promised land -  
Until I've found our freedom  
I will not die

Where's the promised land -  
my destiny  
Where's the promised land -  
I need a guiding light  
to make my clouded eyes see
