

Riding Through Hell

Heavenly

All we want is to survive
defend our land and our life
In our hand a metal blade
to fight this force of (raging) hate

Brave at heart we'll face the end
united we must stand
For our kingdom we will die,
raise our banners high

Riding through Hell
For freedom we fight
in glory we're.
Riding through Hell

For all our people, who are praying for us
For all the victims, who believe in us
They must know: We'll be always there!
To protect our land
forever!

Riding through Hell
For freedom we fight
in glory we're.
Riding through Hell

Now the battle comes to end
Down on their knees the enemy will repent
Now the king retakes his crown
never let it down - again!

Riding through Hell
For freedom we fight
in glory we're.
Riding through Hell
