

Sign of the Winner

Heavenly

Lost in the sea, a man is searching for land.
But an angel is guiding him, a superior force
is showing him the way through his quest.

Sun be my guide
Can you see where is the right side ?
In my quest
Which feels so hard
I heard a voice
Coming from the sky

Passing through the storm
And find your land
You have to be proud
Follow your way

It comes the wind
And the rain on my way
But the sun has never shown me its light
This kind of fear gives me force in my head
The sign of the winner is in my eyes

Sea, magic sea
Victory resounds to my mind
Future is not so far
The angel's voice calls me one more time

Passing through the storm
And find your land
You have to be proud
Follow your way

It comes the wind
And the rain on my way
But the sun has never shown me its light
This kind of fear gives me force in my head
The sign of the winner is in my eyes

Wings of destiny follow the wind
Wind of destiny follow your dreams

It comes the wind
And the rain on my way
But the sun has never shown me its light
This kind of fear gives me force in my head
The sign of the winner is in my eyes
It comes the wind
And the rain on my way
But the sun has never shown me its light
This kind of fear gives me force in my head
The sign of the winner is in my eyes
