

# No Matter What

Heavy D

Ting called!!! I don't know why yuh feel like  
you're not special, and you are  
Yeah! Oh oh!

Let's go back to the stars  
in case you've been forgetting how beautiful you are  
And some how, it seems, you think, that your look is no beauty queen  
But I see ya, differently girl, and your everything I need  
Cause I never knew what love was didn't know what love does  
Until you did it to me

No matter what (No matter what) No matter what (No matter what)  
I'm gonna be here, no matter what (No matter what)  
As long as the world turns, you'll have my love girl  
No matter what, no matter what, no matter what

Days when I'm stressed girl, you make it easier  
When I'm on the road day after day I'm kissing her  
Visions of kissing her, romance love dancing her  
Is the best place I've been  
I don't see you, differently girl, your still beautiful to me  
Cause I never knew what love was didn't know what love does  
But then you did it for me

No matter what (No matter what) No matter what (No matter what)  
I'm gonna be here, no matter what (No matter what)  
As long as the world turns, you'll have my love girl  
No matter what, no matter what  
No matter what (No matter what) No matter what (No matter what)  
I'm gonna be here, no matter what (No matter what)  
As long as the world turns, you'll have my love girl  
No matter what, no matter what, no matter what

The love that I had for you will never fade away  
No no my love, no no my love  
The love that I had for you it will never change  
No no my love, no no my love  
The love that I had for you will never fade away  
No no my love, no no my love  
The love that I had for you it will never change  
No no my love, no no my love

No matter what (No matter what) No matter what (No matter what)  
I'm gonna be here, no matter what (No matter what)  
As long as the world turns, you'll have my love girl  
No matter what, no matter what  
No matter what (No matter what) No matter what (No matter what)  
I'm gonna be here, no matter what (No matter what)  
As long as the world turns, you'll have my love girl  
No matter what, no matter what, no matter what
