

## Meat Hole

Heavy Heavy Low Low

Is this real is this even real  
no one above me  
i am below me gravel and bone am i smiling have i grasped the s  
ituation yet  
I put my hand on my neck in a position where I can feel my puls  
e on my fingers  
A strange sense of sadness passes over me  
Starting at my eyes and ending in my toes  
I start to grab at my chest and I feel everything burst my skin  
in hellfire  
My body on earth choking on sorrys for the people who made me.
