

By the old brook you came along  
You made me write this song  
Just audible the word  
The whispering breeze made heard  
This beautiful little song  
Just silently oh love came along  
Very violently  
Oh Caroline please give me some time  
Please, please be mine  
Oh Caroline please come to me girl  
And I'll give you all the love I have for you  
Your hair is soft I have to touch it  
Your walking is so incentive  
It makes me want you  
Caroline come into my life  
Give me what you have to give  
Caroline you've got to come to me girl  
So I can love, give you all my feelings...  
Caroline please come to me girl  
So I can love, give you all my feelings...  
By the old brook you came along  
Yes you made me write this song  
This beautiful little song  
Just silently oh love came along  
Very violently
