

## Heavy Metal Angels (In Metal And Leather)

Heavy Load

Driving down the highway now  
The speed is high, just like lightning  
They have the wind in their hair  
The light of sunshine in their eyes

They're always there, every night  
Standing up in the front  
They look so fine in metal and leather  
Heavy metal is their life

Heavy metal angels, metal and leather  
Heavy metal angels  
Heavy metal angels, metal and leather  
Heavy metal angels, metal and leather

They come to see the show each night  
Oh, the music takes you away  
I'm for you and you're for me  
We look so fine in metal and leather

Like angels of the dark  
You come to the show each night  
You know I need you now  
Need you 'cause you are the light

Like angels of the dark  
Inhaling me with darken eyes  
Making me paralysed  
I'm burning, burning inside

We have the power, oh, of thunder  
We can change the world together  
There's an aim for joy and glory  
It's not far to reach the sky
