

# Beautiful Girl

Hedley

Beautiful girl, beautiful girl, you don't want to fuck with me  
Beautiful girl, stay on my world, nothing by a tragedy  
Wasting your time, out of your mind, don't be delusional  
Leave me be, yeah, you'll be just fine, baby just carry on

Beautiful girl, beautiful girl, don't know why you rescued me  
Beautiful girl, stay in my world, swear that you're the best for me  
All of my life couldn't get it right, everything felt so wrong  
I have brighter days, you get all my praise, you saved me

How can I stand next to you all alone and do nothing at all?  
It starts in my hands, straight to my bones, head spinning when you f  
all  
With my heart safe and sound, I stay  
And my feet on the ground, I say  
I've never been higher  
Let the world catch fire  
Living, loving, I stay

Beautiful girl, beautiful girl, couldn't do it on my own  
Beautiful girl, this is our world, never have to be alone  
All of my heart, every part, I can't stop thanking you  
I got brighter days, you get all my praise  
I will always love you, you saved me

How can I stand next to you all alone and do nothing at all?  
It starts in my hands, straight to my bones, head spinning when you f  
all  
With my heart safe and sound, I stay  
And my feet on the ground, I say  
I've never been higher  
Let the world catch fire  
Living, loving, I stay

You, ooh, ooh  
You, ooh, ooh

I just know you saved my life, you saved me  
I'mma be alright, you saved me  
You saved my life, you saved me  
I'mma be alright, you saved me

How can I stand next to you all alone and do nothing at all?  
It starts in my hands, straight to my bones, head spinning when you f  
all  
With my heart safe and sound, I stay  
And my feet on the ground, I say  
I've never been higher  
Let the world catch fire  
Living, loving, I stay
