

Young

Hedley

I'm tired of waking up at 5AM
My boss has lost his freaking mind again
I'm getting so sick of the same routine
And living out somebody else's dream
Another zombie coming back to life,
Only 20 but I'm feeling like I'm 45

Better burn out than fade away
So come and have a drink on me
On me, on me

We were young, having fun
Used to party all night long
Jumping up and down and getting crazy,
Banging our heads to AC/DC
We were young, turn it up
Used to party til we'd drop
And we wouldn't stop until we'd see the sun
We were young
Young
Young
Young
Young

I'm tired of dressing up and stressing out
I'm guessing messing up's what I'm about
Kicking and screaming inside my head
A white picket fence, you blink you're dead.
Another zombie coming back to life,
With the beat like a bomb in the blinding lights.

Better burn out than fade away,
So come and have a drink on me,
on me, on me

We were young, having fun
Used to party all night long
Jumping up and down and getting crazy,
Banging our heads to AC/DC
We were young, turn it up
Used to party til we'd drop
And we wouldn't stop until we'd see the sun
We were young

Hey hey hey!
Time is ticking, they say
Hey hey hey!
Not a minute wasted
Hey hey hey!
It's better to burn out than fade away

We were young
Young
Young
Young
Young

We were young, having fun
Used to party all night long
Jumping up and down and getting crazy,
Banging our heads to AC/DC
We were young, turn it up
Used to party til we'd drop
And we wouldn't stop until we'd see the sun
We were young,
Having fun
Used to party all night long
Jumping up and down and getting crazy,
Banging our heads to AC/DC
We were young, turn it up
Used to party til we'd drop
And we wouldn't stop until we'd see the sun
We were young
