

# Had To Be Panama

Heffron Drive

Bury the flames in the hot, hot sand  
We can't stop digging it up  
Keep staring it up  
We got carried away, we got carried away  
Pouring a drink in a empty glass  
One night isn't enough, so pour another for us  
We got carried away, we got carried away  
And it all went down so fast

It had to be, had to be, had to be Panama  
It had to be, had to be, had to be Panama  
If your eyes look the same under different stars  
it's not a mistake to be where we are  
It had to be, had to be, had to be Panama, Panama, Panama

Watching the tide pulling us back in  
waves crash into the shore  
We said that we wanted more  
We got carried away, we got carried away  
Stand in the dark with my t-shirt on  
our clothes all over the floor  
Why did we end it before?  
We got carried away, we got carried away

It had to be, had to be, had to be Panama  
It had to be, had to be, had to be Panama  
If your eyes look the same under different stars  
it's not a mistake to be where we are  
It had to be, had to be, had to be Panama, Panama, Panama

Oh, oh, oh, oh

It had to be, had to be, had to be Panama  
It had to be, had to be, had to be Panama  
If your eyes look the same under different stars  
it's not a mistake to be where we are  
It had to be, had to be, had to be Panama, Panama, Panama

Oh, oh, oh, oh

It had to be, had to be, had to be Panama  
Oh, oh, oh, oh
