

Stand Forever

Heffron Drive

Start it off with a breakdown baby
I've been quietly studying you
standing off in a corner with your arms crossed
eyes locked staring at the scene unfolding before you
and I'm not sure if it was me that you smiled at
but one more drink and I'll be past that
and into you so please don't question
when I, when I take your hand away and go

I'll stand forever and ever
and maybe one day we'll be together
now if only you see me from the way that I see you
now if only you see me from the way that I see you
so please baby go dry your eyes
the last thing I wanna do is make you cry
if only you see me from the way that I see you
if only you see me from the way that I see you

It's a long shot, but I'll say
I wanna unremember you
so purse your lips and blow me a kiss
if it's the last thing that I'll see from you
well could this be the reason that we always fall apart?
always stopping never starting, walk away a broken heart
and you and me just need some time alone
you and me just need to be alone

I'll stand forever and ever
and maybe one day we'll be together
if only you see me from the way that I see you
if only you see me from the way that I see you
so please baby go dry your eyes
the last thing I wanna do is make you cry
if only you see me from the way that I see you
if only you see me from the way that I see you

In the morning when you come to
if you wanna leave, I won't stop you
[oh, oh oh, oh, oh oh, won't stop you, oh, oh oh, oh, oh oh]
you've got me underwater and I'm trying to breathe
if you wanna stay, I won't make you leave
oh, oh oh, oh, oh oh,
I won't make you leave
oh, oh oh, oh, oh oh

I'll stand forever and ever
and maybe one day we'll be together
if only you see me from the way that I see you
if only you see me from the way that I see you
so please baby go dry your eyes
the last thing I wanna do is make you cry
if only you see me from the way that I see you
if only you see me from the way that I see you
if only you see me from the way that I see you
if only you see me from the way that I see you
