

# I Can't Change The World

Heideroosjes

You tell me to conform but i won't  
You tell me to shut up but i don't  
You tell me it doesn't make sense  
To me there is more than hangin out with friends

I can't change the world  
But you'll hear my voice  
Don't you think i see it's a mess?  
Don't you think i hate all this stress  
Why don't you just stand up and fight  
I won't say it will help but i might

I can't change the world  
But you'll hear my voice

It seems i stand alone in a crowd  
But i continue to open my mouth  
If people don't talk anymore  
They have started a new useless war
