

# Then All Hell Breaks Loose!

Heideroosjes

Who dares to dance  
On the edge of a ravine?  
What's happening  
In the dark of our brains?  
Misery drags you with it  
Over all borders  
A fatal alliance  
But in chaos everyone's on it's own

Then all hell breaks loose

Friendship by destiny  
A pact with evil  
In a case of madness  
Everybody's too late  
Hear the scream  
In the darkness  
Who finds compassion?  
In the power of doom?

Then all hell breaks loose

Then all hell breaks loose  
Does pain win from sense  
Chaos is born  
Then all hell breaks loose  
Chaos is born
