

# We're All Fucked Up!

Heideroosjes

If I look around in society today  
I just can't find the words  
I don't know what to say  
Hatred has replaced  
compassion and respect  
We seem to accept  
things we should reject

Sometimes I really think  
no one gives a damn  
We teach a lot of rules  
which we never exam  
So maybe I just should  
act like one of those  
And punch a harmless granny  
real hard up her nose

Let's sing a song together  
'cause we are all f\*\*ked up  
In a society of violence  
it's better to be locked up

Give me a gun  
I blow your head away  
I just wanna kill  
A rich kid today  
Lend me your knife  
And than I'll stab you in the back  
I just like some blood  
It's cool if can't hit me back

Give me your car  
I'll drive it off a bridge  
I can't return your keys  
They're stolen by a midge  
Spare me some coins  
So I can cop some dope  
I will feed it to your sister  
And hang her on a rope

Let's sing a song together  
'cause we are all f\*\*ked up  
In a society of violence  
it's better to be locked up

Oh my god what's going on  
Did we lose it all?  
If we stay intolerant  
Down is where we fall  
Why not put a smile on  
And share a pint of beer  
Everyone is welcome to have fun  
And give a cheer
