

Fall In Tears

Heimdall

Will I ever arise from this endless dark abyss?
Where the god took me to roam
In the kingdom of loneliness and dusk
Will the sun ever return after this long eclipse?

How many times I heard her voice
In the twilight i heard her song
She fell in tears

I'm prisiner, a leaf caught in a whirwind
Leave me alone! O dark voice
Of a fatal hate and endless pain
How many times I asked my blade to save me from these chains

Why did you foolish men leave her secrets buried in the heart?
Why did you call her witch and liar?
