

# Hard As Iron

Heimdall

I'm coming from beyond  
Through the black ways of the past

I am here to complete the gods punishment  
I am their noble heir - so it is written in the secret and dark  
scripts

Watch me in silence  
Look to my power  
Feel my stroke - as hard as iron

I am the anguish and fear  
I am the worm inside

Burning with anger - I'll take you into the depths  
Deserts will be frozen - flames will arise to the heights of skies

I live in darkness  
I knew death and despair  
I am the emperor -  
The master of your lives
