

## The Island Of Ancient Stone

Heimdall

"Welcome to the court of Asgardr, valiant HEIMDALL  
Your evil brother Loki, by a black spell  
Seized on the holy necklace of Freyja  
And took it to the dark ISLAND OF ANCIENT STONE

Run White God, defeat the evil one  
Bring the sacred jewel back again  
It was forged by the dwarves of the fire race  
In the Icy Caves  
Source of Life - mystic symbol of creation  
It holds the power of light - evil forces guarded it  
In the dark mysterious  
ISLAND OF ANCIENT STONE

Maids of the dark are coming across the sky  
Insanity obscures our reign  
And upsets the fragile balance of the kingdoms  
Of the Universe... Return on the wind of glory and victory  
Restore order and peace"

"Lord of war I'll recover the jewel - I shall plunge my burning  
blade  
Into the chest of the enemy - I swear on my sword  
I shall free the bewitched lands from the black threat"

He flew like an eagle over the lands of ice  
Destiny called him to THE ISLAND OF ANCIENT STONE

On the dark island among the waves of the sea  
A god against a god - they fought through the day  
Till HEIMDALL's sword delivered the final blow and  
Loki - wounded - fell into the cold deep waters

"I'll Return in revenge you'll die, you'll die, you'll die"
