

## Disorder

Helalyn Flowers

Again, again  
I've tried to reach my other me in a space unplaced  
Where everything has lost its own image  
I've tried and I've wished to find a way to fade away  
Where everything could make me over...  
I need to wake up my body  
I need to wake up my mind, again  
I've tried to reach my mind

I've tried to reach my space  
I've tried to find a way  
A way to fade away  
I've tried to reach my mind  
I've tried to reach my space  
I've tried again, tried again, tried again, again!
