

Tide Line

Helalyn Flowers

It's growing on me
Like, like a frame that I cannot explain
So sham but so real
I saw things getting closer
And I'm walking on
A fragile string
Oh, when everything is down

I'm so confused, so different
Because I feel so strong
When I drown In the time
I'm so confused, so different
'Cause I can see beyond
When I drown in the time

It's growing on me
Like, like a frame that I am playin' again
There is not escape
Since I have closed
The backdoor of my second-mind
And I still breath...
Oh, when I drown In the time
