

Baby, I'm A Star

Helen Reddy

If you wonder where I'm at
Got the big bucks, the bank roll's fat
Hey people, I'm not hurting
Give me a stage an' a big red curtain

I'm a star, hey baby, I'm a star
I dreamed real big
An' I took it far

I was born in Melbourne, Vic
Didn't fit in, I had to get out quick
Did not want rubies or diamond rings
Just had some songs that I had to sing

I'm a star, hey baby, I'm a star
I dreamed real big
An' I took it far

I don't care, I've got my mystique
I might be an angel, I might be a
From Vegas to Malibu

You all wonder what I do
Got two kids an' a man I love
An' a clenched fist in a velvet glove

I'm a star, hey baby, I'm a star
I dreamed real big
An' I took it far
