Make Love To Me

Helen Reddy

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me

I know what it's like to be loved Cause I've been loved before I know what it's like to be down You know I fell before

I know what it's like to be lonely I know what it's like to be blue

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me

I know what it's like to be touched Cause I've been touched before I know what it's like to be a fool I've been a fool before

I know what it's like to be lonely I know what it's like to be blue

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me

Won't you make love to me Let it be, set me free You and me so tenderly Make love to me
