

Thank You

Helen Reddy

It's really not a song
To make you sad and blue
It's a song of love
That's true

I thought I'd take the time
To sit myself right down
And thank you for the treasures
I've found

With my family, all of my friends
With my family and all of my friends
With my family, all of my friends and you

Yes, you've done your part
To try and help me out
That is what it's really
All about

Knowing that you care
Always makes me smile
You are what makes living
Worthwhile

With my family, all of my friends
With my family and all of my friends
With my family, all of my friends and you

You are responsible
For the impossible
You are dependable
You're not expendable

You're my family and all of my friends
You're my family and all of my friends
You're my family and all of my friends are you
Thank you
