I Don't Care

Helen Shapiro

You gone and found somebody new
And left me lonely
I'm goin' around with somebody new
But I don't care

What a fool I was to think you were true
I loved you only
I never thought we'd ever be through
But I don't care

Guess I'll have to start going places
Look around and find some new faces
I'll be kickin' over the traces
I don't care what happens to me

You're not the only fish in the sea
So I'm not waitin'
Don't you think you're gonna come back to me
For I don't care

Now, I know that all is said and done
You will always be the only one
Talkin' to yourself is never fun
I must run to someone new

What a fool I was to think you were true
I loved you only
I never thought we'd ever be through
But I don't care

Guess, I'll have to start going places
Look around and find some new faces
I'll be kickin' over the traces
I don't care what happens to me

You're not the only fish in the sea
So I'm not waitin'
Don't you think you're gonna come back to me
For I don't care, I don't care, I don't care
