Look who it is Look who it is Well look who it is That's been meeting you suddenly Well look who it is I can see you remember me Cause I was the one who believed That I just didn't need you Then started feeling blue Well look who it is It's me and I still love you Well look who it is Did you think I'd forgotten you I realized That you may have found someone new But I can't pretend That I didn't miss you Why did I let you go Look who it is It's me and I love you so Baby now I realize I have made a big mistake There are teardrops in my eyes And my heart is about to break Well look who it is With his hand reaching out for mine Well look who it is Everything's gonna turn out fine Oh I have waited so long And prayed that I meet you With all your charms Look who it is It's you and you're in my arms Look who it is Well look who it is It's you and you're in my arms Look who it is Whoa wow look who it is It's you and you're in my arms
