

Baby It's Over

Helena Paparizou

You have stolen my heart
And that's why it hurts whenever we are far apart
I got lost in your eyes
And that's why you almost had me fooled it's not goodbye
Goodbye
You say you're coming back
But I've heard that phrase before and I can't believe in that
I know it won't be the same
Coz I need you next to me not a million miles away
Away

If you go then it's already too late
I can't take it please don't make me wait
It's over
Baby it's over
I move on, I am trying to forget
I'll erase everything we had
It's over
Baby it's over

I'll do good on my own
But I can't be with someone and still feel all alone
In time I guess it will heal
And I know our love by then is ancient history
To me

If you go then it's already too late
I can't take it please don't make me wait
It's over
Baby it's over
I move on, I am trying to forget
I'll erase everything we had
It's over
Baby it's over

You're following a dream
The sacrifice is me
I know you'll be fine
You just won't be mine

If you go..

If you go then it's already too late
I can't take it please don't make me wait
It's over
Baby it's over
I move on, I am trying to forget
I'll erase everything we had
It's over
Baby it's over
