Tonight I'm gonna hold my breath I see the light Over the edge There's something, I feel it and it's in the air now I hear the clock and it's ticking and it's getting so loud (Ooh oh oh oh yeah) Let's don't hold back Don't hold back on love Don't hold back, what we need more of We can shine through the night Up to the satellites Let's don't Hold back on love It's time So take my hand You're heart in mine The promise land Oh pour gasoline make the flame get higher Oh make me believe in love and desire Let's don't hold back Don't hold back on love Don't hold back, what we need more of We can shine through the night Up to the satellites Let's don't Hold back on love La, la la, la la la la la (Ooh oh oh yeah) Let's don't hold back Don't hold back on love

Let's don't hold back
Don't hold back on love
Don't hold back, what we need more of
We can shine through the night
Up to the satellites
Let's don't
Hold back on love
