

# You Set My Heart On Fire

Helena Paparizou

Once my life was just a lonely room  
With no one to take away my gloom  
Waiting for someone to come and  
fill my life with love  
ooh sweet love

And set my heart on fire, fire  
fire in the flame of love  
higher higher  
Than the stars above  
I need someone to dive me in water water  
that will make me strong  
Oh I need somebody to burn me in the flame of love, yeah

Every cloud must have a silver lining  
You came alone my knight in armor shining  
All my life I've been knocking on doors  
Now I'm so glad that door that opened was yours

You set my heart on fire, fire  
fire with the flame of love  
Oh you take me higher higher  
Than the stars above  
You got, you got to dive me in water water  
that will make me strong  
Oh I need somebody to burn me in the flame of love, yeah

Oh pretty baby I'm burning, burning at your love  
I need you, Oh pretty baby I'm burning at your flame of love
