

Time's Not On Our Side

Helena Vondráčková

Take my hand and walk slowly
To the land of dreams
Side by side we're not lonely
With our love, it seems
Just don't talk, don't you feel it
All that lovin' care
I do believe you, love
When you simply say
Stay with me now

Time's not on our side
I know there is nothing we can hide
Believe me you are my only real pride
And I'm feelin'
I'm just reelin'

Time's not on our side
Night and day it is the only guide
And it's got that night-time day-time speeding ride
Don't you leave me
Stay by my side, love

Time's the ocean with no end
So we're sailin' on
Even when you're dreamin'
It is just runnin' on
Hm
I can hear the clock beatin'
Every now and then
You seem like you are sleepin'
In the dreamin' - van
Stay with me now

Time's not on our side
I know there is nothing we can hide
Believe me you are my only real pride
And I'm feelin'
I'm just reelin'

Time's not on our side
Night and day it is the only guide
And it's got that night-time day-time speeding ride
Don't you leave me
Stay by my side, love
