

## Goodbye My Love

Helene Fischer

You turn and walk away  
The wind is cold, so cold today  
But I know that you'll return  
It's one thing that I've learned  
To listen to my heart when it believes  
The night is endless now  
But I'll be strong, you showed me how  
Before I let you go,  
The world I used to know  
You gave me all the hope I need  
Goodbye my love until we meet again  
I know that you must go it's not the end  
May happiness be yours along the way  
And where you go may love be yours each day  
My love I know you have to say farewell  
I'll be alright now I know time will tell  
One day you will return I don't know when  
Goodbye my love until we meet again  
The light of spring comes soon  
Beneath the snow a flower blooms  
Before that time has dawned  
I'll hold you in my arms  
I know that you'll be back one day  
Goodbye my love until we meet again  
I know that you must go it's not the end  
May happiness be yours along the way  
And where you go may love be yours each day  
My love I know you have to say farewell  
I'll be alright now I know time will tell  
One day you will return I don't know when  
Goodbye my love until we meet again  
Goodbye my love until we meet again
