

Wake Me Up

Helene Fischer

You came into my life and then you turned it upside down 'Cause
I don't want to go to work, don't want to leave the house And
all I want is to hold you 'cause you are all that I need But wh
en tonight is over please promise me one thing

Just wake me up before you go and kiss me like you would stay A
nd let the world go away cause we don't need it anyway Just wak
e me up before you go and make it last all day long It's me and
you and no one else cause you're everything I want It's me and
you and no one else that keeps me holding on

If I could only have one wish I know what it would be I'd lock
up every door in sight , I'd throw away the key I know that it
may sound crazy but it's just the way I feel Tonight can't last
forever so please promise me one thing

Just wake me up before you go and kiss me like you would stay A
nd let the world go away cause we don't need it anyway Just wak
e me up before you go and make it last all day long It's me and
you and no one else 'cause you're everything I want It's me an
d you and no one else that keeps me holding on

Just wake me up before you go and kiss me like you would stay A
nd let the world go away cause we don't need it anyway Just wak
e me up before you go and make it last all day long It's me and
you and no one else 'cause you're everything I want It's me an
d you and no one else that keeps me holding on
