Helia

Stars fall down on me  
Stars fall down on me

And everything explodes tonight  
Gold dust is all around me  
The noise is silence in my head  
Why can't I just turn back?

Watch the sky and you'll see my eyes  
And I'll be there for you with a glass in my hand  
Watch the sky and you'll be just fine  
And I'll be there for you  
Smiling at your stupid world

The crowd and the rain  
A black day  
The show is over now  
But I can see  
You playing in the wind  
A free bird  
So hold your breath  
And dance in the light

Watch the sky and you'll see my eyes  
Watch the sky (Watch the sky)  
And you'll be just fine

Watch the sky and you'll see my eyes  
And I'll be there for you with a glass in my hand  
Watch the sky and you'll be just fine  
And I'll be there for you  
Smiling at your stupid world

The crowd and the rain  
A black day  
The show is over now  
But I can see  
You playing in the wind  
A free bird  
So hold your breath  
And dance in the light

You walk with me  
You walk with me

This is still our night  
This is still our night, so walk with me
