

High-voltage Kicks

Helix

When I'm feelin' down
So mellow and blue

There's a sure fire remedy
That always pulls me through

I just gotta get me a fix
Of those high voltage kicks

Playin' my music loud
Really like that sound
Come on get out the lead
Gonna wake the dead

'Cause I'm flyin' high
Come on let's go
Needles on the red line
Hittin' overload

I've been waiting
For so long
Plug me in and
Turn me on
I'm wired for sound

Gimme those
(High voltage kicks)
I need those
(High voltage kicks)
Gonna throw the switch
(High voltage kicks)
I want those
(High voltage kicks)

If my feet had wheels
You know I'd rock n' roll right outta here
Eat my dust
Well you better stay clear

'Cause when the whistle blows
Well, I gotta go
Meet at the station with some
Rock n' roll

Got my ticket
And I'm on the move
Plug me in and
Turn me lose
Gonna blow a fuse

Gimme those
(High voltage kicks)
I need those
(High voltage kicks)
Gimme, gimme, gimme, gimme, gimme those
(High voltage kicks)
I want those

(High voltage)

Kick it out
Kick ass
It's a slice
It's a gas

You know it

Listen up

Got my ticket
On the rock express
Plug me in and
Oh, I must confess
There ain't no rest for the wicked

(High voltage kicks)
I need those
(High voltage kicks)
Gimme, gimme, gimme, gimme, gimme those
(High voltage kicks)
I want those
(High voltage kicks)
Come on, come on, come on, come on
(High voltage kicks)
I want those
(High voltage kicks)

I need a hit of those
Circuits on overload
Come on and give me those
High voltage kicks
