

# Kiss It Goodbye

Helix

Mercy

Don't wanna be a soldier  
Just a rock and roller  
Yeah, 'cause one mistake  
And it'll all be over

When that red sun rises in the sky  
Poor boy now you're gonna die  
Don't you stop to wonder why  
Just bend over, kiss your ass goodbye  
Kiss it goodbye

No easy street, no quick solution  
Yeah, what we all need is a peaceful revolution

Eye for an eye, lie for a lie  
Poor boy now you're gonna fry  
Don't you stop to wonder why

Just bend over, kiss your ass goodbye  
Kiss it goodbye  
Kiss it goodbye

So long sucker

Well I'm going home, put my headphones on  
Better get ready, 'cause it won't be long

And when that red sun rises in the sky  
You'll know that it's time to decide  
One itchy finger, it's a one way ride

Just bend over, kiss your ass goodbye  
Adios  
Kiss it Goodbye  
Kiss it Goodbye  
Sayonara  
Kiss it Goodbye
