

Trusting in our machine,
We head for oblivion.

Raising the first alarm
Red light, red light
This is a warning sound
Red light, red light...

There's a haze coming down
Upon us.
Every tribe for themselves
United in chaos.

Invading force alert
Sirens wailing
Air raiders in the sky
Circling...

Raising the first alarm
This is a warning sound (2x)

Now the power's out,
All that I can see
Is the gleaming white
Of your retina.
Light the path for me,
Blaze the trail again,
Lead the exodus
Back inside the cage...

Invading force alert
Sirens wailing
Air raiders in the sky
Circling...
