

# Better Off Dead

Hellion

You've been out the whole night long  
Putting on a show  
I'm waiting alone  
You haven't come home  
My head is gonna blow  
It's been hours since you've been gone  
But you're never satisfied  
I know where you were last night  
I know that you lied

You'd better learn  
But you don't even hear one word I've said  
You'd better learn or you'll find out  
That you'd be better off dead

Better off dead  
Don't you see  
You ain't fooling me  
Better off dead  
Better off dead  
If you mess around with me  
You'd be better off dead

I think you should know by now  
But you're never satisfied  
I know where you were last night  
I know that you lied  
Some things never seem to change  
You always leave a clue  
See the magick disappear  
What are you gonna do

You'd better learn  
But you don't even hear one word I've said  
You'd better learn or you'll find out  
That you'd be better off dead

Better off dead  
Don't you see  
You ain't fooling me  
Better off dead  
Better off dead  
If you mess around with me  
You'd be better off dead

Better off dead  
You ain't fooling me  
Better off dead  
Better off dead  
If you mess around with me

Better off, better of dead  
Don't mess with me  
If you mess around with me  
You'd be better off dead
