

# The Last Straw

Hellion

One straw broke the camel's back  
One step forward, two steps back  
The last straw the pressure's comin' down on you  
What did you do to you?  
The last straw there's nothing - ain't nothin'  
Nothing left that I can do!

It's been a long time  
And I should've known better  
Than to trust you  
It's the last straw!  
It's been a long time and I should have been wiser  
Where you ever as you seemed?  
It's the last straw!

How much longer until I crack?  
Working towards a heart attack!  
There's little that's left to do

When hope alone won't see you through  
The last straw the pressure's coming down on you  
What did you do to you?  
The last straw there's nothing - ain't nothin'  
Nothing left that I can do!

It's been a long time  
And I should've known better  
Than to trust you  
It's the last straw!  
It's been a long time and I should have been wiser  
Where you ever as you seemed?  
It's been a long time  
It's the last straw!  
And I should've known better  
Than to trust you with my dreams  
It's the last straw!

The last straw  
The last straw the pressure's coming down on you  
What did you do to you?  
The last straw there's nothing - ain't nothin'  
Nothing left that I can do!  
It's been a long time and I should've known better  
Than to trust you with my dreams  
It's the last straw!  
It's been a long time and I should have been wiser  
Where you ever as you seemed?  
It's the last straw!  
It's been a long time and I should've known better  
Than to trust you with my dreams  
It's the last straw!  
It's been a long time, oh yeah  
And I should have known better  
It's the last straw!

Should've known better  
Should've known better

Should've known better  
It's the last straw!
