

Re: Always On My Mind

Hello Saferide

If you say that you're the one
How come you always bring me down?
How come you always bring me down if you say you're the one?

And if I'm always on your mind
How come you've been so hard to find?
How come you've been so hard to find if I'm always on your mind
?

You left me looking like a fool, boy
You left me yearning for your love
Thought about leaving just to let you know that I am not for granted
Guess I am for granted

And when night has turned to day
I'll never leave you anyway
I'll never leave you anyway when the night has turned to day

You left me looking like a fool, boy
You left me yearning for your love
Thought about leaving just to let you know that I am not for granted
Guess I am for granted
Guess I am for granted

If I'm always on your mind
How come you've been so hard to find?
How come you've been so hard to find if I'm always on your mind
?
