

## How Wrong I Can Be

Hellogoodbye

And I was afraid  
I ran so fast I cried I didn't know  
I would awake in just the nick of time  
And I could see  
And I could see your sun in me

And it was a shove  
So I shoved right back, you have to understand  
I was in love and I will try to fight for it  
And I could see  
And I could see your sun in me

I could see just how long I could be your  
How long it could take to figure out

Holding you close  
I danced around for a little while  
I didn't know I was your heart...beat

And I could see just how long I could be your  
and how long it could take to figure out  
And I could see just how long I could be your  
And how long it could take to figure out
