

# I Don't Care, You Don't Care

Halloween

You took me up and you took me down  
You managed not to make me frown  
I met some dogs, they looked me down  
And said: "You're not her only man in town"

Don't you beleive (That) I Needed You  
'Cos I know the ones who act the way you do  
You kinda ones will always stay the way you are

But I don't care, you don't care, we don't care  
Shit happens  
But I don't care, you don't care, we don't care  
Let it happen

My sister drove my Bentley home  
And found she wasn't all alone  
She led him in and thought she'd won  
He took the car and now he's gone

Don't you believe that I feel blue  
There's other thoughts and other things to do  
Tho sometimes I think bad luck is going a little  
Too far

But I don't care, you don't care, we don't care  
Shit happens  
But I don't care, you don't care, we don't care  
Let it happen

But I don't care, you don't care, we don't care  
Shit happens  
But I don't care, you don't care, we don't care  
Let it happen
