

Just a Little Sign

Halloween

Here I stand alone again
Hundreds all around
(Hundreds all around)
Didn't come here to make a friend
But to listen to the sound
(Listen to the sound)

Something's growing in my pants
As she looks into my eyes
Now I smile the whole damn night
But my dream acts cold as ice

It's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign

Shouldn't I dare to talk to her
But what is it I would say
(Is it I would say)
Surely I'd look like a clown
For my smiles freeze on my face

It's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign

It's time for just a little sign
It's time, make believe the world is mine

It's time for just a little sign
It's time, make believe the world is mine
It's time for just a little sign
It's time, make believe the world is mine
Just a little sign, just a little sign
