

# Kids of the Century

Halloween

We poison our hearts  
We poison our seas  
We burn down the paradise

We're stoppin' good waves  
We're losin' our trees  
The future looks bright ahead

I don't wonder we'll go under  
In this river of lies

We're lost in this time  
We create so fine  
The future we already fear  
Seems like no way out  
Seems like there's no doubt  
The future looks bright ahead

We're the kids of the century  
We're lost in our games  
No time for the memories  
We look in the haze  
We're the kids of the century  
It wasn't our fault  
Ev'ry thing's done num, we fall  
Let's keep on crying  
But sometimes I don't wanna fall

Ev'rytime when you look around  
things will smile at you  
Ev'rytime when you turn around  
you smell the truth  
But you run away  
From the lies you can't say  
Don't run away  
From the lies you can't say

We're the kids of the century  
We're lost in our games  
No time for the memories  
We look in the haze  
We're the kids of the century  
It wasn't our fault  
Ev'ry thing's done num, we fall  
Let's keep on crying  
But sometimes I don't wanna fall
