## **Kids of the Century**

## Helloween

We poison our hearts We poison our seas We burn down the paradise

We're stoppin'good waves We're losin'our trees The future looks bright ahead

I don't wonder we'll go under In this river of lies

We're lost in this time
We create so fine
The future we already fear
Seems like no way out
Seems like there's no doubt
The future looks bright ahead

We're the kids of the century
We're lost in our games
No time for the memories
We look in the haze
We're the kids of the century
It wans't our fault
Ev'ry thing's done num, we fall
Let's keep on crying
But sometimes I don't wanna fall

Ev'rytime when you look around things will smile at you Ev'rytime when you turn around you smell the truth But you rum away From the lies you can't say Don't run away From the lies you can't say

We're the kids of the century
We're lost in our games
No time for the memories
We look in the haze
We're the kids of the century
It wans't our fault
Ev'ry thing's done num, we fall
Let's keep on crying
But sometimes I don't wanna fall
