

Make Fire Catch the Fly

Halloween

Never again
I told myself
I'll play with fire
Never again
I'll come too close
To this desire
My melted wings have just healed
When my faceted eyes are bound in fascination
Never say never say
Never again
Never again

Alright
It's my last flight
Must go on and on
Until I die
Tonight
Into the light
Must go on and on
One last sigh
Make fire catch the fly

Never again
But just tonight
I heed the calling
This could be the end
I won't regret then when I'm falling
My melted wings have just healed
But my little mind is bound in fascination
Never say never say
Never again
Never again

Alright
It's my last flight
Must go on and on
Till I die
Tonight
Into the light
Must go on and on
One last sigh
Make fire catch the fly
