

## Make Fire Catch the Fly

Halloween

Never again  
I told myself  
I'll play with fire  
Never again  
I'll come too close  
To this desire  
My melted wings have just healed  
When my faceted eyes are bound in fascination  
Never say never say  
Never again  
Never again

Alright  
It's my last flight  
Must go on and on  
Until I die  
Tonight  
Into the light  
Must go on and on  
One last sigh  
Make fire catch the fly

Never again  
But just tonight  
I heed the calling  
This could be the end  
I won't regret then when I'm falling  
My melted wings have just healed  
But my little mind is bound in fascination  
Never say never say  
Never again  
Never again

Alright  
It's my last flight  
Must go on and on  
Till I die  
Tonight  
Into the light  
Must go on and on  
One last sigh  
Make fire catch the fly
