

# Never Be a Star

Halloween

No matter how big we are  
We dream of home  
The place where we all belong  
Therefore this song

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be a star

No time to see all our friends  
There where we are  
Ten thousand miles are quite long  
And much too far

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be a star  
A star, a star, a star, no

We are who we are  
We are who we are  
We are who we are  
We are who we are

We are who we are  
Never be a star  
We are who we are  
Never be a star

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be, never be

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be a star

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be, never be

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be a star

We are who we are  
We'll never be a star  
We are where we are  
But we'll never be a star
